

CHANNELVIEW ISD 2019 BOND

September Update

September 16, 2020--Classes for Channelview ISD are in full swing. All students are attending classes virtually for the next few weeks. The school year looks very different. Fortunately it has not slowed down construction on the 2019 Bond projects.

This month, a lot of progress has been made on the Channelview High School athletic facilities. The softball and baseball batting cages are near completion. The softball field's press box's structure has been completed, along with the chain link fence surrounding the field. Construction crews also began installing the fence that will enclose the baseball field and work continues on the baseball field's press box. In addition, the scoreboard for both fields has been added to the sports complex.

The tennis courts are also nearing completion. The beat board panels and fencing have been installed.

"I look forward to seeing the look on our high school athletes' faces when they see these upgraded facilities," said Assistant Superintendent of Operations Mike Niemeyer. "I'm proud of the work that has been accomplished these last several months."

The expansion of CHS's new Career and Technical Education (CTE) Center and Fine Arts Center is well underway. Construction crews have added the back wall to the house seating area of the new auditorium and it's ready to be poured. Rebar has also been installed and the electricians have begun working on the next phase.

The logo features a stylized globe in blue and white, centered within a grey circular frame. To the left of the globe are three yellow rectangular bars of varying heights, stacked vertically. To the right of the globe, the text "CHANNELVIEW ISD" is written in a grey, sans-serif font. Below this, the words "2019 BOND" are written in a large, bold, blue, sans-serif font.

CHANNELVIEW ISD 2019 BOND

“I would like to reiterate how grateful I am to our voters,” said Superintendent Greg Ollis. “Our voters are the reason our students will benefit from all of these wonderful new upgrades and renovations.”

This month, CHS leaders met to finalize their decisions on furniture selection. Furniture was selected for several high school rooms including; library, front office, classrooms, SpEd areas, art rooms, robotics and engineering, among many others.

The 2019 Bond will provide upgrades to every campus, including Harvey Brown Elementary. School leaders discussed new paint colors, floor and wall tiles for the campus. The lively meeting offered the opportunity for campus leaders to voice their opinions and take a close look at the different color palettes offered.

The Channelview ISD Board of Trustees, district administrators, architects and contractors continue to be committed to the 2019 Bond and ensuring your bond dollars are hard at work. Keep up with the 2019 Bond progress on our district website and social media pages.
